2009 Eagle Scout Rank Application
&
2009 Eagle Scout Leadership Service Project Workbook
(This version you can type in and save)

If you have not heard, there is a new 2009 Eagle Scout Rank Application form (512-728). The 2008 version will not be accepted by the NCAC after August 1, 2009. The 2009 form is very similar to the 2008 form but more information and a detailed review are forthcoming from the advancement committee.

As with all scouting changes, there is a transition period from now until August 1, 2009 where the current 2008 Eagle Scout Rank Application form is valid and can be used by candidates for Eagle Scout. Scouts who have started their project or will have it completed before August 1, 2009 are not affected.

You do not need to re-do your Eagle Scout Rank Application form or project write-up if you believe you will have your Eagle Board of Review and the Application (with supporting materials) **submitted prior** to the August 1, 2009 deadline. If the Eagle Board of Review is conducted before August 1, 2009 but you submit the Application (with supporting materials) on or after August 1, 2009, then you must use the 2009 version of the Eagle Scout Rank Application form but can use the current Eagle Scout Leadership Service Project Workbook if the project was started **and** completed before August 1, 2009. Note: You may use the new 2009 Eagle Scout Leadership Service Project Workbook (512-927) now if you want but it is not required unless you are starting and/or completing your project after August 1, 2009.

Caution: If you are going to create a word processing version of the Eagle Scout Leadership Service Project Workbook be very careful to copy all of the exact wording from the PDF version into your word processing document. There is no substitute for the official wording and requirements and if your document is not correct, you may place the scouts using it in a situation where the project may not be counted as completing Requirement #5 on the Eagle Scout Rank Application form, 2009.
